

Acceptable Recycling Materials

Aluminum Cans

Empty and rinse. Please flatten to save space.

Cardboard

Be sure to flatten all cardboard.

Do not include: items with food residue (e.g., pizza boxes) or boxes with a wax coating. Remove plastic linings from cereal boxes.

Glass

All clean bottles and jars, clear or colored, deposit or non-deposit.

Remove lids and caps, metal and plastic neck rings. Labels may be left on.

Do not include:

Broken glass, dishes, mirrors, window glass, light bulbs, Pyrex or crystal, caps, corks or lids.

Cans

Any tin or aluminum food cans, baking pans or foil. Empty and rinse.

Okay to leave labels and lids attached to cans. Please flatten to save space.

Do not include:

Loose can ends, cans with plastic or paper parts (example: frozen juice containers), oil-based paint cans, auto parts, scrap metal, propane cylinders, chemicals or paints, aerosol spray cans.

Please **DO NOT USE PLASTIC BAGS**. With single stream recycling, we send our materials to a processing facility using an automated system to sort and bale recyclables. Plastic bags jam the automated machinery. Most grocery stores collect used plastic shopping bags for recycling.

NOT RECYCLABLE in our Recycling Program

Products Contaminated With FOOD		Products Contaminated With BODY FLUIDS
Pizza Boxes 	Paper Plates & Towels 	Tissues 
Take-Out Containers 	Waxed Beverage Containers 	Diapers (Children & Adult)
