Meeting called to order at 9:06.

Brake Hill Water Tank: Gootée explained to commissioners about the grade and conditions of the road. It is so wet that tree trucks or contractors cannot get up there until it dries out.

Drakes Landing- Gootée said this was approved through Planning Board and should start project soon.

Bedrock Well Upgrade: Tata & Howard has submitted new documents to Planning Board.

Subdivision (Neve) off Sullivan's Court: House for sale nothing happening through winter.

Opt-Out Radio Reading- Gootée wants to draft a policy which would make a meter pit be installed if home owner wishes not to have a transmitter which allows the radio reading for billing to be done. He will go over with Commissioners before anything is put in place.

Other Matters:

- Gootée said the Lead and Copper was approved but one person opted out so he will use another location for this year.
- Gootée said that flushing is done and because he waited for Newburyport flushing to be done the water conditions were great.
